EDUCATION

California State University, Fullerton

May 2028

Bachelor of Science, Computer Science

- **GPA:** 3.7

TECHNICAL SKILLS

- **Languages:** C++, Python, Java, JavaScript, Snap!, Data Structure, Swift, Algorithms, Database Development, Compilers, iOS Development

ACADEMIC EXPERIENCE

Data Science Research Intern

Jun 2025 - Aug 2025

CIC-PCUBED

- Conducted a longitudinal data analysis (1997-2013) of 15+ years data, examining the relationships between rising CO2 emissions, deforestation rates, and global temperature trends, discovering statistically proven correlations to increase information about environmental policy insights.
- Implemented machine-learning models in Java, including Linear Regression, K-means clustering, and classification, to analyze large-scale datasets and demonstrated improved predictive performance compared to baseline techniques
- Identified correlations among various sets of data and determined specific factors that contribute towards deforestation through the implementation of random forest sampling.
- Presented research findings at the CSUF Summer Symposium with 2000+ attendees, faculty members, presenters, and researchers.

Big Brothers Big Sisters - Technologist

Jan 2026 - May 2026

Student Mentee

- Met bi-weekly with designated mentor and other professionals within the company to build interview skills, expand connections, and career planning skills.
- Received ongoing mentorship regarding academic progress, career exploration, and post-graduation opportunities.

LEADERSHIP EXPERIENCE

ECS Leadership and Diversity Summit

Aug 2025 - Feb 2026

Student Outreach Lead

- Collaborated in a team to increase engagement with campus community and coordinated outreach efforts that generated 150+ student RSVPs, significantly boosting event visibility and attendance.
- Played a key role in event logistics and day-of coordination by assisting with venue setup, coordinating attendee seating arrangements, and overseeing operational details throughout the event.

California State University, Fullerton Theta Tau

Jan 2025 - Dec 2025

Historian

- Responsible for chapter-wide documentation and branding efforts by photographing meetings, events, and initiatives, strengthening public presence.
- Increased chapter Instagram engagement and posting activity by 30% through analytics-driven posting and consistent content.

PROJECTS

Finance Tracker (iOS Application)

Aug 2025 - Dec 2025

Paper Trail

- Developed and designed a full-featured finance tracking application with 2 classmates that allows users to keep track of their finances, income, savings, and spending. Uses an interactive interface to document the user's expenses.
- Provides the user with 8+ categories and well-defined extensions, allowing flexible expense classification tailored to individual finance spendings.
- Integrated a savings goal feature allowing users to set and track percentage-based targets, increasing financial awareness and long-term planning capabilities.
